GOTHIC FLEET REGISTRY

Update 6 Sep 2026 · previous release 4 Sep 2026

fleet builder + card printer

Fleets WiP v0.36 · Rulebook v1.10

442 → 460
cards
four ships you could not field before

438 → 0
clipped cells
L/F/R used to truncate 326 times

6
bugs fixed
all found by the new stress test

THE CARD READS BETTER

Fire arc is a picture now, not a letter code
Four wedges, front up. Dark = fixed arc, grey = a choice. Darken the wedge you actually used.

Alternative weapons form one group
Circle = pick one, square = independent option. The weapon in use is already marked.

More room where it was needed
Armament block 4.5 mm wider and 4.5 mm taller. DAMAGE in two bands, crippled half labelled.

NEW AND FIXED

Ships added to the lists
Seditio Opprimere — venerable battle barge, the 0–1 slot on Space Marine lists
Pthuxutl, Fra'al Raider and Nekulli Whip on Rogue Trader lists

Bugs fixed
Strike Cruiser charged for two launch bay swaps
Chaos Vengeance read "Imperial Navy | pg. 58"
Four ships carried their price in the name

HOW THIS WAS CHECKED

Seven checkers, all at zero
Cards compared line by line to the source PDF. A stress test runs every ship with random choices: 75,000 assertions, no findings.
